# My email to my congressman re Healthcare: Still confused - please help...

GORDON WAYNE WATTS · THURSDAY, MARCH 23, 2017 · 17 Reads

By going to <http://DennisRoss.House.gov> and clicking on the little 'Contact' link, constituents in Rep. Ross' district (Fla's 15th Congressional District) can contact their congressman/congresswoman, in the U.S. House of Representatives. Here is what \*I\* wrote my Congressman - what do you think?

### Dear Congressman Dennis A. Ross:

With all due respect, Congressman Ross, even at this late stage in the game, I still don't know if the GOP replacement for the ACA is "affordable" or not. (Also, I don't know what level of coverage it affords, what the income requirements are, how it's funded itself, or how many people it covers.) Please clarify. I did contact your office and formally request this be looked into, but haven't, as yet, gotten a response. [[I know my questions are difficult, but many others are asking them, so answering me will help you be prepared to answer others with similar questions.]]

PS: For the record, I formally recommend POLK Care as the model for the ACA replacement: Polk County, Florida's indigent healthcare plan is "affordable" (only 1/2-cent sales tax funds it), covers LOADS of people (anyone making under \$990.00/month is eligible), and is VERY powerful: Paying for my cataract surgery, regular checkups, and would pay more, but I decline to take some treatments or tests, preferring instead to heal up with God's promises in the Bible regarding healing, and this seems to work, thus far.

[FUNDING] -- To fund it, I would recommend either a Federal sales tax of 1/2-cent on the Dollar (one-half percent), a slight increase in Income Tax, \*or\* a slight reduction in spending elsewhere (getting out of many foreign wars, \*total\* elimination of taxpayer funding of

college loans, and elimination of other "pork barrel" programs) -- and/or a combination of "all of the above." The end result may not cover as many things, but it would at least be affordable. Japan's, Canada's, and possibly Australia's & China's socialized healthcare works, and POLK County Fla.'s indigent plan works, so why try to reinvent the wheel? If it works, and isn't broken, it doesn't need "fixing," so please just copy what works, and make it simple, OK?

**Shawn Gilliam** All the healthcare system is Brother Gordon is a Sick Care System, I pray the Almighty Allah will shut down the health care system in America, and he will Institutes all of his Organic Natural Cures (Medicine of the Prophet PBUH) in its place. This sick care system is nothing more then nuclear radiation, drugs and fraud, I will never step foot inside another nuclear drug hospital in my life

**Ron Hornback** Shawn ... were you born in a hospital?  
Like · Reply · 5 hours ago

**Shawn Gilliam** yep, only because my mother was ignorant and did not know, but when I am married, my children will be born with an all natural birth, only with a midwife and Fresh organic dates InshaAllah. I will know how to keep my wife healthy thorough the Pregnancy, with the help of Allah, InshaAllah

**Ron Hornback** And if there are complications like a breech birth or the cord wrapped around the baby's throat? Do you think that eating dates will make the difference?  
Like · Reply · 5 hours ago

**Shawn Gilliam** C sections are dangerous bro, and you don't start to run into complications until these operations occur. Natural Birth is how they always done it from Prophet Adam (PBUH) until the current time, truth be told brother, Dates help a woman in her bleeding, and help a woman deliver a healthy baby, and is the example of the Pregnancy, of his beloved Mother Mary when she had, Prophet Isa (PBUH)

**Ron Hornback** Didn't say a thing about c-sections. Doesn't your god say you are responsible for the lives of your children?  
Like · Reply · 4 hours ago

**Shawn Gilliam** yes Allah does say we are responsible for the lives of our children, and our beloved Prophet also says, there is a cure for every disease, they will be taught righteousness, and truth, and health all through their childhood, and Allah will lead us to the cure, and if we have to deal with internal injuries, etc. we will do so with prayer and with truth. I trust the wisdom of Allah, after Allah is asked for guidance, then I do any doctors. The Doctors are educated idiots, but Allah knows all secrets in heavens and in earth.

**Ron Hornback** Allah says that you are the Shepard and that you are responsible for your flock. A Shepard will move heaven and earth to protect your flock. If Allah is God then he must have allowed people to learn procedures that will protect the flock. Your duty even before conception is to protect your children by any means possible including hospitals.

**Shawn Gilliam** I will protect my family from the evils of the hospital and witchcraft, which is Satan's handiwork, and if someone comes at me over my family getting a "so called" mandatory vaccine or shot, I will consider their shot or vaccine to be a potential deadly weapon, and I will use force to defend my family, up to and including deadly force if I know the situation, warrants it. You don't come at my family with a vaccine or shot, which can potentially be a deadly weapon

**Shawn Gilliam** If you keep trying to undermine my character Ron, be aware, that if I feel oppressed in any way, I will make dua for Allah to punish you, and there is no distance between me and Allah at that point, he will answer my dua

**Ron Hornback** So that means you can't answer the question? Bring Allah on it is you that is only following the words you want to follow and ignoring the rest

Like · Reply · 3 hours ago

**Shawn Gilliam** I answered your question clearly, I will keep my family away from harm (hospitals are harm and fitnah) they will be cured, InshaAllah. If anyone comes at my family with a vaccine or shot, I will consider what they have in the hands to be a potential deadly weapon, and I will act accordingly and we (as a family) will seek Allah only for their cure. Ron you are an idiot, and you just cannot help stupid, I will block you now, because I'm not going to be bothered by idiots, and I will pray Allah punish you in my next dua, InshaAllah for trying to undermine my character

**Shawn Gilliam** Every Illness Has A Cure: The Islamic Perspective  
On 04.08.09

by Mawlana Sikander Khan Pathan

Praise be to Allah, Knower of all ailments and their hidden cures. May peace and salutations be upon His first prophet Adam, His final prophet Muhammad and all the prophets that came in between Amen! (Amen!).

Muslims like so many others believe in a creator. We believe that we were sent into this world as vicegerent of Allah. The Holy Quran informs us that man and jinn were created for the worship of Allah. After death we shall all be resurrected on the Day of Judgment and we shall be judged according to our deeds.

Therefore our principle of life is:

"He Alone has the keys of the unseen treasures, of which no one knows except Him. He knows whatever is in the land and in the sea; there is not a single leaf that falls without His knowledge, there is neither a grain in the darkness of the earth nor anything fresh or dry which has not been recorded in a Clear Book."  
Quran 6.59 (Translator Malik)

It further says in the Quran:

"And Hold fast the rope of Allah, all together, and do not be divided"  
Quran 3.103 (Translator Malik)

Medication:

There are many Ahadith (traditions of Prophet Muhammad peace be upon him (pbuh) which encourage the Muslims to seek medical treatment. Some of them are mentioned below:

Abu Hurayrah narrates that The Prophet pbuh said:

"There is no disease that Allah has created, except that He also has created its remedy."

Bukhari 7.582

Fortunately, they are going to jail for murder and spend the rest of their life wondering why God didn't protect them.

**Ron Hornback** Breast cancer

Like · Reply · 2 hours ago

**Shawn Gilliam** Ron Hornback, you know it was very interesting, I was eating a so called "halal" chicken breasts yesterday, that was on an all natural vegetarian diet before it was slaughtered, and I noticed a blood clot internally in the breasts after they were fully cooked. I did not eat it and I threw it away after I saw the clot. But then I got to thinking and remembered all natural does not mean non-gmo or organic. It is still grown with some dangerous pesticides, herbicides, heavy metals, pharmacuticles, etc. I know they say people with breast cancer, have the potential of getting blood clots. I believe, what they were feeding the chicken (the all natural vegetarian diet), gave the chicken breast cancer, and the chicken developed a blood clot because it wasn't non-gmo or organic. How many unorganic foods does the person who has breast cancer eat?

Like · Reply · 47 minutes ago · Edited

**Ron Hornback** And who confirmed it was cancer? You do know that if chicken is not cooked long enough, there will be small blood droplets that cook enough to congeal but not to cook out?

**Dan Burress** I know you are Muslim , but look up or google the 89th section of the Doctrine and Covenants.I am LDS (Mormon) and this is the health code given to the Prophet Joseph Smith , by the Lord in the early 1830's regarding the use of tobacco,tea, coffee, and alcohol.We have as a people lived by these laws since then and our life span is 10 years longer than the national average.

Like · Reply · 5 hours ago

**Shawn Gilliam** I understand brother, that that is your doctrine, and that is a good doctrine to follow. What turned me away from Mormanism, was only one thing. I flipped through the Book of Morman, and I seen where it says, God gave the swine for food and I know this wasn't true. There was one lie in the Book of Morman. with that being said, I totally embraced Islam. It is Prophecized, Prophet Isa (PBUH) when he comes back, will kill the swine, break the cross, and tell the Christians he was nothing more then a Prophet of Allah.

**Dan Burress** The Savior's death on the cross was for our salvation. He was and is the great High Priest who has offered Himself for our transgressions ,and took upon Himsself all of our sorrows and afflictions. Both the Holy Bible and Book of Mormon testify of this, duel witnesses that Christ has come to deliver us out of darkness.Because He conquered death and rose from the dead, we too may have this hope of eternal salvation,not by our own works which cannot save us , but by grace working together and holding hands with grace.,

**Dan Burress** From an historical view point ,many of the prophets of the Old Testament died by violence at the hands of wicked men.They sealed their testimony with their blood,as a witness against the evil of idol worship or some other gross sin.When God revealed the ordinance of blood sacrifice in the Old Testament,it was a symbol and shadow of things to come.The Jewish High Priest would select a lamb without defect and offer it as a ransom for sin , for his own sins and for those of the people..Christ has come and is our High Priest, and has offered Himself for us, of His own free will, and took upon Himself all of our sins.All of the dirty, rotten, things I have done are forgiven because I have trusted in this act of grace,done for me , you, and all who come by faith.We are reborn spiritually, leaving our old natures behind and are renewed and cleansed by the Holy Spirit, as we come to the throne of God's grace and are adopted into His family by faith,not by our own works, so that we have nothing to boast about.

**Shawn Gilliam** Dan Bures the Ordinance of blood sacrifice in a temple never existed, The Temple was made up, by the Jews and the Romans who were try to take control of Jerusalem. The Works of Flavious Josephus is a work of Fiction rather than fact and a work of the Flavian Dynasty of Rome. However, Masjid AlAqusa in Jerusalem, always existed and is on the out courts of the old city. That is the Masjid Mother Mary prayed in (May Allah be pleased with her) when Prophet Isa (PBUH) was announced by the Angel Gabriel (Jabriel) that was also the Masjid the prayer of Zachariah was accepted by Allah and the angel met Zachariah to announce the birth of Yahyah (John). The Dome of the Rock, is not Significant, and their is no Jewish Temple underneath there. That is not the rock Prophet Abraham (PBUH) offered up his son Isac on. In the Islamic Narrative (which is true), Prophet Abraham (PBUH) offered up ishmael (his first born of Hagar) in Arabia, as a major test of Prophet Abraham (PBUH). This is why Muslims do the ritual of stoning of satan every year at HAJJ, because satan tried to discourage Prophet Abraham (PBUH) and his son from going forward with Allah's command, and they stoned him and told him not to interfere.

**Shawn Gilliam** The Islam concept of forgiven comes with repentance, good deeds and caring for others, we believe in only Halal meats, and taking a Halal animal's life only after the name of Allah has been called over it and the animal surrenders, also we believe, in our giving to others in sacrifice, Allah can forgive our sins. So the concept of Animal sacrifice with giving was so someone could have something halal to eat, and the givers sins would become iliviated.

**Greg Williams** The ACA was never supposed to be a finished product but was designed to be fine tuned and improved. DoubleFaced Dennis and the morally corrupt Congress chose to waste our tax dollars by continually voting to repeal the ACA instead of fulfilling their campaign promises of finding ways to improve it. Their current proposal is a sellout to the insurance industry and harms working people and businesses alike while transferring billions of our dollars to an already bloated and highly profitable insurance industry. I guess the \$500k+ they contributed to the Ross campaign is money they feel was very well invested.
