SUBJECT: "Securing the Grid" (and other key infrastructure) is possible only with S.2598 to force down toxic pork spending and requisite inflation

Rep. Scott Franklin (R-FL-15), Sens. Rubio & Scott (R-FL)

Cc: National Grid expert, Dr. Peter Pry

Cc: Dr. Ed Shoemaker and Paul Hatfield, local GOP leaders who support both necessary cuts to pork and S.2598, the bipartisan bankruptcy bill with twice as many GOP sponsors as Democratic

Cc: Alan Collinge, national student debt expert who agrees with me, Ed, and Paul regarding S.2598

Cc: *No other cc recipients here, to keep it simple, but I include a few National experts in cc to assure you that I'm studying under experts, and in case you need further information.*

Re your post about inflation:

https://Facebook.com/story.php?story_fbid=255666563129563&id=106168061412748

Congressman Franklin:

As I've said before, you need to cut <https://ContractWithAmerica2.com/#pork> spending, and that you did not do, nor did you even try. Do you disagree with my logic? If yes, please clarify. If no, then introduce one version of the bill outline in this section, linked above, SECTION II. Cutting pork spending. A copy of the needed bill is also in APPENDIX-A of the attached written testimony to the Senate Judiciary committee.

If you do not cut pork spending, then the very inflation which you decry (in your Facebook post) will continue and crash both:

- 1) the dollar and
- 2) **the vulnerable power and telecom grid (because of lack of funding, see 1 above), as well as possibly,**
- 3) electoral hopes of GOP candidates, such as you. Your new communications aid, retired LPD Sgt. James Ring, was good enough to give me the ok to ask him to listen to me. That's all good and well, and later tonight or tomorrow, I should hope to stop being lazy and nonproductive, and send you a complete "game plan" to avert disaster. But, whether I am responsible or lazy, the fact remains: If you continue the "lame, halfway" measures of lawmakers of both political parties, you absolutely WILL allow this "bad" inflation to crash the dollar and the grid (due to funding needs) and the nation. As I've said before, the bipartisan bankruptcy uniformity bill, S.2598, <https://www.Congress.gov/bill/117th-congress/senate-bill/2598/cosponsors>

which presently has twice as many GOP sponsors as Democratic (something that should assure you

this is a good bill), is the ONLY lynchpin force (other than a miracle, which I don't foresee) to make your goals here possible regarding the pork and infrastructure and inflation needs. Do not expect a miracle. Do expect a crash of the dollar (and the grid due to inadequate upgrade funds) if you don't listen to sense and file or cosponsor the bills in question. Do not say wise economy experts didn't warn you. We are.

Caveat: I have not spoken with Dr. Pry regarding my theory that S.2598 is needed to force down pork spending and make it possible to fund needed upgrades to the GRID, so please don't construe my dropping his name as such. Nonetheless, while I would hope and guess he might agree here, the fact remains, I am your Constituent and am speaking in official capacity because I seek your legislative representation to avert disaster on several levels.

If I can be of help, please let me know, and I'll do what I can within my power. Otherwise, please see the attached written testimony submitted to SENATE JUDICIARY and also CONTACT WITH AMERICA: PART II(TM) online for resources. Now, please, Scott, get it done, or propose a better solution.

Gordon Wayne Watts
Constituent, Fla. Dist. 15
