Results

The information provided below reflects the information in your electronic medical record with BayCare Health System. If you believe that any data is incorrect, please notify your healthcare provider.

Test results are released to the patient portal as soon as they are completed. As a result, you may see results before the ordering provider does. Results are typically reviewed within 1-2 business days.

Graphing is available on some results, by clicking on the result value. Some results use an attached document or image that may not be available within our Patient Portal, please contact your healthcare provider to request a copy.

Vital signs during surgery are monitored using equipment not linked to the electronic health record. Therefore any vital signs visible during surgery may not be accurate.
