**MEDICAL DOCUMENTATION:
'Normal' levels of Blood Hemoglobin**

EXHIBIT -- "E" (part 3 of 3)

The image shows a mobile search interface. At the top, there is a status bar with icons for messages, music, and social media, along with signal strength, Wi-Fi, and battery level (77%) at 10:13 AM. Below the status bar is a search bar containing the text "normal range hb blood test" and a magnifying glass icon. Underneath the search bar are four filter tabs: "ALL", "NEWS", "SHOPPING", and "IMAGES". The "ALL" tab is selected. Below the filters is a large image of red blood cells. Underneath the image is a text snippet from a search result:

"A low **level** of **hemoglobin** in the **blood** relates directly to a low **level** of oxygen. In the United States, anemia is diagnosed if a **blood test** finds less than 13.5 g/dL in a man or less than 12 g/dL in a woman. In children, **normal levels** vary according to age." Jun 23, 2017

At the bottom of the screen is a navigation bar with three icons: a back arrow, a home circle, and a recent apps square.
