## Spano Insists on Fiscal Responsibility

Washington, July 25, 2019

Tags: [Congress](#) , [Economy](#)

**WASHINGTON, D.C.** -Representative Ross Spano (FL-15) issued the following statement after voting no on the Budget Act of 2019:

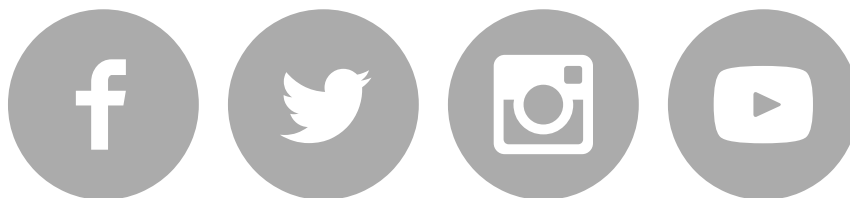

As I have crossed the district, my constituents routinely voice concern about our escalating national debt and why Congress does not make the hard choices necessary to deal with the problem. Hardworking American families are forced to balance their checkbook every month, and they wonder why Washington doesn't have to do the same. I share these concerns, and this is why I voted against the Budget Act of 2019. The bill suspends the debt limit and increases our spending for the next two years by over \$300 billion above the 2011 budget caps that were put in place to control spending. I pledge to work with my colleagues on solutions to get us back on the path toward fiscal responsibility.
